Aggregation Large Scale Optimization Applied Litvinchev

aggregation in large-scale optimization - springer - aggregation in large-scale optimization by igor litvinchev and vladimir tsurkov computing center, russian academy a/sciences, moscow, russia springer-science+business media, b.v. *large-scale optimization - problems and methods* - large-scale optimization - problems and methods by vladimir tsurkov computing center. russian academy of sciences, moscow, russia sprtnger-sctence+bustness media, b.y. *scalable algorithms for large temporal aggregation* - for small-scale aggregations, and scalable solutions for large-scale aggregations based on data partitioning and parallel processing techniques. section 6 presents the results of experimental evaluation of the proposed solu-tions. finally, section 7 summarizes the contributions of this paper and gives an outlook to future work. 2. *efficient algorithms for large-scale temporal aggregation ...* - efficient algorithms for large-scale temporal aggregation bongki moon, ines fernando vega lopez, and vijaykumar immanuel abstract—the ability to model time-varying natures is essential to many database applications such as data warehousing and mining. *an evaluation of constraint aggregation strategies for ...* - an evaluation of constraint aggregation strategies for wing box mass minimization andrew b. lambe1, graeme j. kennedy2, joaquim r. r. a. martins3 abstract constraint aggregation makes it feasible to solve large-scale stress-constrained mass mini-mization problems efficiently using gradient-based optimization where the gradients are computed using *ant colony optimization based scheduling for load ...* - algorithm to deal with the large-scale optimization problem for big data application and an online algorithm is also designed to adjust data partition and aggregation in a dynamic manner. in our proposed system, introduced new meta heuristic algorithm to perform the load balancing. the ant colony optimization algorithm (aco) is a probabilistic *heaviside projection based aggregation in stress ...* - gations, the heaviside aggregation based single constraint can substantially reduce computational cost on sensitivity analysis. these advantages make it possible to apply the proposed approach to large scale stress-constrained problems. keywords topology optimization, stress constraints, constraint aggregation, heaviside *strategies for adaptive optimization with aggregation ...* - strategies for adaptive optimization with aggregation constraints using interior-point methods graeme j. kennedy ... variants of the discrete ks function have also been used for large-scale design problems based on a generalized exponential function [27]. the p-norm function has been used to ... optimization: more aggregation constraints ... *dynamic state and input aggregation - borrellirkeley* - optimization, standard model reduction can be detrimen-tal to speed and memory. for large-scale sparse systems, optimization algorithms can take advantage of the sparsity f. chuang is a graduate student in the dept. of mechanical engineering, university of california, berkeley, usa fc4321@berkeley f. borrelli is an associate professor in ... *1999: smg: a new simulation/optimization approach for ...* - in this paper, we present a new simulation/optimization approach to the generation of optimal policies for very large-scale systems. the approach, which we call the simulation for model generation (smg) algorithm, combines monte carlo simulation with state space aggregation to empirically create an aggregated sequential *privacy-preserving multimedia big data aggregation in ...* - tion sparse components are obtained through solving the optimization problem and linear equations at the ... multimedia big data aggregation in large-scale wireless sensor networks. acm trans ... *on traffic-aware partition and aggregation in mapreducefor ...* - decomposition-based distributed algorithm is proposed to deal with the large-scale optimization problem for big data application and an online algorithm is also designed to adjust data partition and aggregation in a dynamic manner. finally, extensive simulation results demonstrate that our proposals can significantly reduce *v118n7a4 a new open-pit mine planning optimization method ...* - solution from large-scale ip models, researchers have resorted to heuristic and metaheuristic techniques to obtain near-optimal solutions within a reasonable computation time. several notable heuristic a new open-pit mine planning optimization method using block aggregation and integer programming by n.l. mai*, e. topal†, and o. erten† 45).2.
